Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination including a control unit for controlling the engine, wherein the control unit is configured to detect an abnormality occurrence in the addition device, and to restrict an output torque of the engine in response to detecting the abnormality occurrence in the addition device so that a vehicle speed is restricted at or smaller than a predetermined value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Applicant's arguments, see Pages 8-11, lines 1-22, filed August 13, 2009, with respect to Claims 1-20 have been fully considered and are persuasive. Accordingly, the Office Action mailed on April 13, 2009 has been withdrawn.
